NOTICE TO CITY SUBSCRIBERS.

Wishing to confine our business as near as possible to the CASH SYSTEM, we have deter-mined hereafter to collect our subscriptions, within the city, QUARTERLY. To carry this determination into effect, we have placed our whole city list in the hands of Mr. JOHN JACK-SON, long connected with our Office as Clerk, who will make the collections, and also attend to the delivery of the Papers, and see that subscribers are served punctually. We hope this arrangement will be satisfactory to all parties. Those who may desire to save themselves the necessity of making four payments during the year, can, if they prefer it, pay in advance for the whole year.

We are indebted to W. T. BERRY & and examine this useful article. See adver-Co., for several new publications, which we will notice hereafter.

An Irishman, Thomas Shea, who was

livery, was made night before last. Four of BRAGO'S ARCTIC LINIMENT is the best and the prisoners escaped from their cells into the speediest remedy ever produced for the cure of entry; and were proceeding to liberate the strains, bruises, contusions, burns, sealds, &c., others, when they were discovered, asked to and for removing the inflammation and pain suspend, and were remanded with an addi- from dislocation. It is also wonderfully effitional suit of jewelry.

BROWN and MAYHAM are masters of the tonsorial art. They also have a skillful corps of professors under their direction, who do great credit to their establishment, which, in pointed. In curing the diseases of horses and its various appointments, is quite as neat as any in the city. It is situated under the Commercial Hotel; where a disagreeable beard may be dispensed with with the greatest plea-

LEWIS, on the Lebanon turnpike, near the first toll-gate from the city, on Saturday morning next. There are a number of entries, and the competition will be great. This is a favorable opportunity for our planting friends to see the superiority of these machines tested, of which quite a number will, doubtless, avail themselves.

THE BITERS BITTEN .- A certain well-known citizen, the dimensions of whose corporosity is only surpassed by his good humor has had a "bee-tree" "staked out" in this vicinity for some time; and yesterday was set apart for the CH West, New York, pleasing exercise of taking the honey. He J T Lewis, Georgia, accordingly notified a few select friends to be on hand at a certain hour of the afternoon, The appointment was overheard by one who knows precisely how to use a "good thing," and who invited a number of his friends to meet on the ground for the same purpose, the night before. He ordered a prior reconnoisance, and having ascertained and "spotted" the tree, they, soon after nightfall, met proceeded to work. The darkness enhanced the difficulties of the enterprise: but they succeed after much labor, in striking and capturing the supposed hive, which instead of turning out to their keen appetites a sweet measure of honey, presented a disturbed nest of cockroaches! They returned to the city with the succeeding dawn, not much worse for the depressing disappointment, and, calmly awaited the result of the day's proceedings. The proprietor, by discovery, without a single shadow of suspicion of what had transpired led his cager party to the spot at the appointed time--it is said they carried a lot of extra tin JOHN YORK & CO. bucketsi ordered for the occasion wherein to dispose the surplus honey-when they were stupified at beholding the havor that had preceded them. They retuned, of course fallen, and the last we saw of our fat friend, he was passing through the city with unusual speed, to fulfill a pressing engagement at the water works! Our private opinion is that both parties were handsomely sold, and that neither can claim anything at the expense of

GRAND CONCERT TO-NIGHT .- Our citizens are to be favored, this evening, with one of those delightful musical entertainments which are rarely vouchsafed them. It is seldom that two such celebrities as Thalberg and Vieuxtemps, unite their great and acknowledged abilities to gratify the public. As these artists occupy distinct positions in the musical world-each equally famous and without a rival-they are thus enabled to combine their wonderfully fascinating powers for the benefit and delight of the public.

Besides the efforts of the above great masters, the Concert will be embellished by the vocalization of the great Prima Donna, ELENA D'ANGRI, and the celebrated English Tenor ERNEST PERRING and SIGNOR ABELLA, all of whom, in their respective departments, have attained high reputation in the eastern cities.

The published programme for this evening embraces some of the most exquisite concert gems. THALBERG's pieces alone, among which are "L'Elixir d'Amore," and "Home, Sweet Home," will more than compensate any lover of music for the price of admission; while the great Vieuxtemps is announced for the "Fantasie Caprice," "Fantasie Lombardi," and the "Witches' Dance," each one of which is priceless.

Madame D'Angri sings her great arias from the "Prophet" "Cinderella" and "Bettys," Er-NEST PERRING sings (in English) the romance from Massaneilo, "My Sister Dear," and Wallace's "Star of Love," altogether forming a

We are persuaded that the same enthusiasm with which this troupe have been received in every city where they have appeared, will attend their entertainments here. Our citizens already are in a state of excitement from the anticipations of this evening. There are still HAVE received during the past few weeks large some very good seats left, and all those who desire a sitting place would do well to apply early this morning, at the Box office. In order to prevent crowding at the door, the dollar ticket may be had this morning at the

BARRY OF A SPINE THE PRINT OF ATT AND A STATE OF STREET

A USEPUL AND ELEGANT INVENTION .- We have been pleased and very favorably impre sed by an inspection of an article manufac-tured by the New England Trace Coupling Company, No. 3 Old State House Basement. It is a simple and beautiful contrivance to fasten the traces of a harness to the whiffletree of a vehicle. There is no possibility of the trace becoming detached under any cirumstances; it is attached instantaneously by spring, and makes a perfect finish to a whiffletree—a desideratum so long desired, but never before obtained. We boldly assert that, if once seen, no gentleman's carriage or any vehicle would be without it. If we were the fortunate possessor of a carriage (the idea of an Editor owning a carriage!) we distinctly and positively say that we should not consider it perfect without the Patent Trace Coupling. The Company's terms for State rights are very low, placing it within the power of any one of small means to realize a fortune in a short time. We would recommend all lovers of riding and horseflesh, and those who have the desire to make money, to call at No.3 Basement of the Old State House,

It will purify the blood throughly, and at the same time strengthen and invigorate the whole organization.
